

SPORTS STARS 2017-18

it teaches you to play by the rules, it teaches you to know what it feels like to win and lose-it teaches you about life.

Did you know? The game of basketball as it is known today was created by Dr. James Naismith in December 1891 in Springfield, Massachusetts to condition young athletes during cold months. It consisted of peach baskets and a soccer style ball. He published 13 rules for the new game. He divided his class of eighteen into two teams of nine players each and set about to teach them the basics of his new game. The objective of the game was to throw the basketball into the fruit baskets nailed to the lower railing of the gym balcony. Every time a point was scored, the game was halted so the janitor could bring out a ladder and retrieve the ball. After a while, the bottoms of the fruit baskets were removed. The first public basketball game was played in Springfield, Massachusetts, on March 11, 1892.

Someone proposed to call it "Naismith Game", but he suggested "We have a ball and a basket: why don't we call it basketball?"

Kismattdeep Kaur of class VII B was declared the Best Player in U-14 Girls in the Bhagwant Singh Memorial Basketball Tournament Vedansh
Ranot of class
VI B was
declared the

The U-12 Boys Basketball Team stood 1st in the Bhagwant Singh Memorial Basketball Tournament

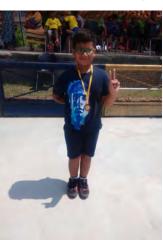

Simran Verma of class II won Silver Jaismine Kaur of class III D stood 1st and Bronze Medals in the Open District Skating Championship

Did you know? The four-wheeled turning roller skate, or quad skate, with four wheels set in two side-by-side pairs (front and rear), was first designed, in New York City by James Leonard Plimpton in 1863 in an attempt to improve upon previous designs. It was a huge success, so much so that the first public roller skating rinks were opened in 1866, first in New York City by Plimpton in his furniture store and then in Newport, Rhode Island with the support of Plimpton. The design of the quad skate allowed easier turns and maneuverability, and the guad skate came to dominate the industry for more than a century

in the District Skating Tournament and won 3 Gold Medals in the Open District Tournament held in Dikshant

Chaitanya Verma of class IV B stood 2nd in Road Race in District Skating Championship and first in School District Championship

THE WORLD OF SPORTS

Did you know? The sport originated in Victorian England, where it was played among the upper-class as an after-dinner parlour game. It has been suggested that makeshift versions of the game were developed by British military officers in India in around 1860s or 1870s, who brought it back with them. A row of books stood up along the center of the table as a net, two more books served as rackets and were used to continuously hit a golf-ball.

The name "ping-pong" was in wide use before British manufacturer J. Jaques & Son Ltd trademarked it in 1901. The name "ping-pong" then came to describe the game played using the rather expensive Jaques's equipment, with other manufacturers calling it table tennis

Learning Paths School Table Tennis Team stood 1st in the U-14, U-17, U-19 Boys and Girls teams in the School District Tournament

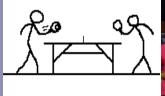

Learning Paths School Table Tennis Team came 1st in the Carmel Convent Table Tennis **Tournament**

League

1st in the Chandi garh State Ranking Tourna ment

LPS won the Overall Championship in the Learning Paths **Table Tennis Tournament**

Did you know? The history of chess can be traced back nearly 1500 years, although the earliest origins are uncertain. The earliest predecessor of the game probably originated in India, before the 6th century AD; a minority of historians believe the game originated in China. From India, the game spread to Persia. When the Arabs conquered Persia, chess was taken up by the Muslim world and subsequently spread to Southern Europe. In Europe, chess evolved into roughly its current form in the 15th century.

Chess remains a highly popular pastime among the general populace. A 2012 survey found that "chess players now make up one of the largest communities in the world: 605 million adults play chess regularly". Chess is played at least once a year by 12% of British people, 15% of Americans, 23% of Germans, 43% of Russians, and 70% of Indian people.

The U-17 Boys got the1st position in the Zonal and District Inter School Chess Competition

The U-19 Boys got the1st position in the Zonal and District Inter School Chess Competition.

The U-19 Girls got the 1st position in the Zonal Inter School Chess Competition

Gunika Jalota of class V stood 2nd in the Punjab State Chess

CRICKET

Bhrigav of class VI A was declared Man Of The Match in an Inter School Cricket Tournament

The sport of cricket has a known history beginning in the late 16th century. Having originated in southeast England, it became the country's national sport in the 18th century and has developed globally in the 19th and 20th centuries. International matches have been played since 1844 and Test cricket began, retrospectively recognized, in 1877.

Manraj Singh of class V B was declared Man of the Match in an Inter School Cricket Tournament

Limited-overs cricket:

In the 1960s, English county teams began playing a version of cricket with games of only one innings each and a maximum number of overs per innings. Starting in 1963 as a knockout competition only, limited overs grew in popularity and, in 1969, a national league was created which consequently caused a reduction in the number of matches in the County Championship. Although many "traditional" cricket fans objected to the shorter form of the game, limited-over cricket did have the advantage of delivering a result to spectators within a single day; it did improve cricket's appeal to younger or busier people; and it did prove commercially successful. The first limited-over international match took place at Melbourne Cricket Ground in 1971 as a time-filler after a Test match had been abandoned because of heavy rain on the opening days. It was tried simply as an experiment and to give the players some exercise, but turned out to be immensely popular. limited-over internationals (LOIs or ODIs—one-day internationals) have since grown to become a massively popular form of the game, especially for busy people who want to be able to see a whole match. The International Cricket Council reacted to this development by organizing the first Cricket World Cup in England in 1975, with all the Testplaying nations taking part.

LAWN TENNIS

Guneet Kaur of class VIII B stood 2nd in the District Lawn Tennis Tournament

Siya Girhotra of class VI C stood 2nd in the District Lawn Tennis Tournament

Sukhmani Kaur of class VI C stood 2nd in the District Lawn Tennis Tournament

Udbhav Kaplish of class VI D, Sarang Sabharwal of Class VI D, and Ranveer Singh VI C stood 2nd in the District School Lawn Tennis Tournament

The game that most people call 'tennis' is the direct descendant of what is now known as real tennis or royal tennis (which continues to be played today as a separate sport with more complex rules). Most of the rules of the game commonly known as tennis derive from real or royal tennis. It is reasonable to see both sports as variations of the same game. Most historians believe that tennis originated in the monastic cloisters in northern France in the 12th century, but the ball was then struck with the palm of the hand, hence the name jeu de paume ("game of the palm"). It was not until the 16th century that rackets came into use, and the game began to be called "tennis." It was popular in England and France and Henry VIII of England was a big fan of the game, now referred to as real tennis.

RIFLE SHOOTING

Arshdeep Kaur of class VIII won a Gold Medal in the 10 mt Rifle Shooting Chandigarh State Tournament

Tikka Jai Singh class X has won Bronze Medal in Punjab State Shooting Championship

SWIMMING

Gauransh of class IX C, Ameya of class IX C & Bhairavi of class VIII C stood 1st and 2nd in the Inter School District Swimming Tournament

ATHLETICS

Gurnoor Kaur of class VII B won Gold Medals in the District Athletic Meet in 100mt and Long Jump

TAEKWONDO

The name Taekwondo is derived from the Korean word "Tae" meaning foot, "Kwon" meaning fist and "Do" meaning way of. So, literally Taekwondo means "the way of the foot and fist". The name Taekwondo, however, has only been used since 1955 while the arts' roots began 2,300 years ago in Korea. Known as a martial art and way of life, the evolution of Taekwondo was a direct result of the happenings in Korea long ago.

Taekwondo, under the leadership of the World Taekwondo Federation has grown into an international art and sport practiced in over 190 counties worldwide.

In 1975 the U.S. Amateur Athletes Union (AAU) accepted Taekwondo as an official sport. Taekwondo was also admitted to the General Association of International Sports Federations (GAISF) and the International Council of Military Sports (CISM) in 1976. In 1980 the WTF became an International Olympic Committee (IOC) recognized sports federation, making Taekwondo a demonstration sport for the 1988 and 1992 Olympic Games. Taekwondo is now an official event in the Olympics.

Learning Paths, Strawberry Fields win titles

A basketball player wrote the following poem expressing his love for the game:

The dribble of the basketball,

The swish of the net,

The squeaking of my shoes against

The wood floor,

The passion and determination that

I feel is indescribable,

As sweat drips down my temples.

The basketball court is my home.

It is where all my thoughts and emotions
Are erased from my mind and all
I can think about is the basketball and
The hoop.

The court is a place that I can focus,
A place where I can put all of my
Thoughts and feelings into the
Things that are important to me.

Basketball is my life and The court is where my Life lives.
